

Advanced Duct Systems

Because Quality Matters

ABN: 15137674750

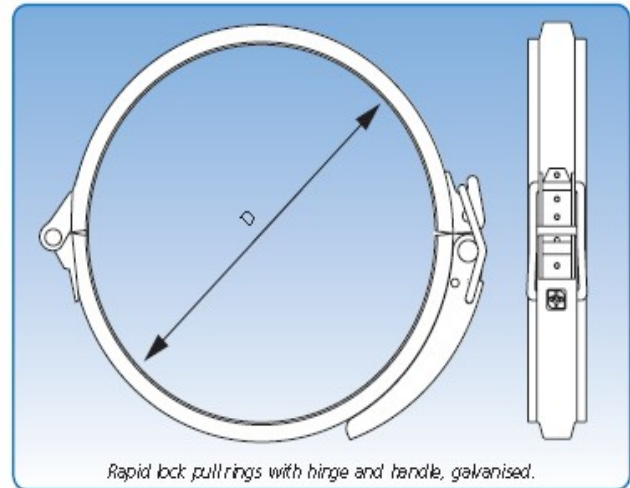

Rapid Pull Ring c/w Hinge & Handle

ADS's Rapid Pull Rings are electro-plated and used for fast and tight assembly of the duct systems. The RPR's are equipped with an insert that provides tight connections and stable strength to the duct system and ensures at the same time the electric conductivity of the connection.

The strong spring steel guarantees the high quality of the opening and closing mechanism of the lock ring and ensures its durability.

EPDM seal standard. Other seal available on request.

Diameter: 80-400mm

Rapid lock pull rings with hinge and handle, galvanised.

D mm	Part #	Weight / 10pcs. kg
80	RPR080	1.90
